VILLAGE BOARD OF TRUSTEES
BUDGET HEARING and BUDGET SUMMARY FY 2026/2027,
SPECIAL HEARING TO SET FINAL TAX REQUEST FY 2026/2027,
AND SPECIAL MEETING
SEPTEMBER 23, 2026

Prayer by Custer.

The Budget Hearing and Budget Summary for FY 2026/2027, Special Hearing to Set Final Tax Request for FY 2026/2027, and Special Meeting of the Village of Ceresco, Nebraska, were held on the 23rd day of September, 2026, beginning 6:00 PM in the Ceresco Community Room. Notice of the Budget Hearing and Budget Summary, and Special Hearing to Set Final Tax Request were published in the Wahoo Newspaper on the 18th day of September, 2026. Notice of the Budget Hearing and Budget Summary, and Special Hearing to Set Final Tax Request were also posted at the Village Office, Ceresco Post Office, and CerescoBank on September 11, 2026. The agenda for the Budget Hearing and Budget Summary, Special Hearing to Set Final Tax Request, and Special Meeting were posted at the Village Office, Ceresco Post Office, and CerescoBank on September 21, 2026.

Peterson called the Budget Hearing and Budget Summary for the proposed FY 2026/2027 budget to order and pointed out the Open Meeting Law Act posted on the wall in the Community Room. Board Members had been given the agenda and supporting documents. Answering roll call: Peterson, Custer, and Johnson. Ruble entered at 6:01 PM. Absent: Burklund. Also present: Jared Anderson, Brittany Klusaw, Stacey Bryant, and Joan Lindgren.

The Pledge of Allegiance was recited.

Peterson moved to open the Budget Hearing and Budget Summary for the proposed FY 2026/2027 budget at 6:01 PM. Custer seconded. Voting Yeas: Peterson, Custer, Ruble, and Johnson. Nays: none. Motion carried.

Lindgren reviewed the Lid Computation sheet, which three copies were made available to the public. The General property tax request for the 2026/2027 budget year is $263,114.87, with a tax levy request of 0.279799. The Bond property tax request for the 2026/2027 budget year is $268,472.00, with a tax levy of 0.285496.

The total tax rate is 0.565295, which is down -0.81% from 0.569939. The valuation increased from $92,513,859.00 to $94,037,132.00.

Lindgren reviewed the Summary of All Funds sheet, which three copies were made available to the public. Total Revenue for Fiscal Year 2026/2027 is $1,798,153.00. Total Expenditures for Fiscal Year 2026/2027 is $2,746,646.00.

The floor was then opened for public comment on the proposed budget statement. There were no comments from the public.

Peterson moved to close the Budget Hearing and Budget Summary for the proposed FY 2026/2027 budget at 6:07 PM. Ruble seconded. Johnson said Tyler Heyen ask him how much MFO money there is and why they can't spend it. Ruble noted he needs to speak with Lindgren. **Voting Yeas: Peterson, Ruble, Johnson, and Custer. Nays: none. Motion carried.**

Peterson moved to adjourn the Budget Hearing and Budget Summary for the proposed FY 2026/2027 budget at 6:08 PM. Ruble seconded. Voting Yeas: Peterson, Ruble, Custer and Johnson. Nays: none. Motion carried.

Peterson called the Special Hearing to Set Final Tax Request for the FY 2026/2027 budget of the Village of Ceresco, Nebraska to order immediately upon adjournment of the preceding Budget Hearing and Budget Summary for the proposed FY 2026/2027 budget and pointed out the Open Meeting Law Act posted on the wall in the Community Room. Board Members had been given the agenda and supporting documents. Answering roll call: Peterson, Burklund, Ruble, Johnson, and Custer. Also present: Jared Anderson, Brittany Klusaw, Stacey Bryant, and Joan Lindgren.

Peterson moved to open the Special Hearing to Set Final Tax Request for the FY 2026/2027 budget at 6:09 PM.

Ruble seconded. Voting Yeas: Peterson, Ruble, Johnson, Custer, and Burklund. Nays: none. Motion carried.

The floor was then opened for public comment on the final tax request for the proposed FY 2026/2027 budget. There were no comments from the public.

Peterson moved to close the Special Hearing to Set Final Tax Request for the FY 2026/2027 budget at 6:10 PM. Ruble seconded. Voting Yeas: Peterson, Ruble, Burklund, Custer, and Johnson. Nays: none. Motion carried.

Peterson moved to adjourn the Special Hearing to Set Final Tax Request for the FY 2026/2027 budget at 6:10 PM. Ruble seconded. Voting Yeas: Peterson, Ruble, Custer, Burklund, and Johnson. Nays: none. Motion carried.

Peterson called the Special Meeting to order at 6:11 PM in the Ceresco Community Room immediately following the Special Hearing to Set Final Tax Request for the FY 2026/2027 budget. Board Members had been given the agenda and supporting documents. Answering roll call: Peterson, Burklund, Johnson, Ruble, and Custer. Also present: Jared Anderson, Brittany Klusaw, Stacey Bryant, and Joan Lindgren.

Ordinance 2026-8 was introduced by Chairman Peterson and is set forth in full as follows, to wit: AN ORDINANCE TO ADOPT THE BUDGET STATEMENT TO BE TERMED THE ANNUAL APPROPRIATION BILL; TO APPROPRIATE SUMS FOR NECESSARY EXPENSES AND LIABILITIES; TO PROVIDE FOR AN EFFECTIVE DATE.

BE IT ORDAINED BY THE CHAIRPERSON AND THE VILLAGE BOARD OF THE VILLAGE OF CERESCO, NEBRASKA.

Section 1. That after complying with all procedures required by law, the budget presented and set forth in the budget statement is hereby approved as the Annual Appropriation Bill for the fiscal year beginning October 1, 2026, through September 30, 2027. All sums of money contained in the budget statement are hereby appropriated for the necessary expenses and liabilities of the Village of Ceresco, Nebraska. A copy of the budget document shall be forwarded as provided by law to the Auditor of Public Accounts, State Capitol, Lincoln, Nebraska, and to the County Clerk of Saunders County, Nebraska, for use by the levying authority.

Section 2. This ordinance shall take effect and be in full force from and after its passage, approval, and publication or posting as required by law.

Chairman Peterson moved to suspend the statutory rules in regard to the passage and adoption of Ordinance 2026-8 to approve the FY 2026/2027 Budget so that said ordinance might be introduced, read by title, and then moved for final passage at the same meeting. Board Member Ruble seconded said motion. The Chair put the question and instructed the Clerk to call the roll for the vote thereon. The Clerk called the roll and the following was the vote on this motion to suspend the rules: Yeas: Peterson, Ruble, Custer, Johnson, and Burklund. Nays: none.

WHEREUPON, the motion having been carried by affirmative votes of no less than three-fourths (3/4ths) of the total members of the Board, the Chair declared the statutory rules in regard to the passage and approval of Ordinance 2026-8 be suspended so that Ordinance No. 2026-8 might be read by title and then moved for final passage at the same meeting.

Chairman Peterson moved that said Ordinance 2026-8 to approve the FY 2026/2027 Budget be approved and passed and its title agreed to. Board Member Ruble seconded this motion.

The Chair instructed the Clerk to call the roll for the vote thereon. The Clerk called the roll and the following was the vote on this motion. Yeas: Peterson, Ruble, Johnson, Custer, and Burklund. Nays: None.

WHEREUPON, the Chair declared said Ordinance 2026-8 of the Village of Ceresco, Saunders County, Nebraska having been read by title, the rules having been suspended, and having been duly approved and its title agreed to by the affirmative vote of no less than a majority of the members of the Board, duly passed and adopted as an Ordinance of the Village of Ceresco, Nebraska.

Resolution 2026-15 was introduced by Chair Peterson and is set forth in full as follows, to wit: WHEREAS, Nebraska Revised Statute 77-1632 and 77-1633 provides that the Governing Body of the Village of Ceresco passes by a majority vote a resolution or ordinance setting the tax request; and

WHEREAS, a special public hearing was held as required by law to hear and consider comments concerning the property tax request;

NOW, THEREFORE, the Governing Body of the Village of Ceresco resolves that:

1. **The 2026-2027 property tax request be set at:**

General Fund:	**$**	**263,114.87**
Bond Fund:	**$**	**268,472.00**

2. **The total assessed value of property differs from last year's total assessed value by 1.65 percent.**

3. **The tax rate which would levy the same amount of property taxes as last year, when multiplied by the new total assessed value of property would be 0.560706 per $100 of assessed value.**

4. **The Village of Ceresco proposes to adopt a property tax request that will cause its tax rate to be 0.565295 per $100 of assessed value.**

5. **Based on the proposed property tax request and changes in other revenue, the total operating budget of the Village of Ceresco will increase (or decrease) last year's budget by 3.78 percent.**

6. **A copy of this resolution be certified and forwarded to the County Clerk on or before October 15, 2026.**

WHEREUPON, Chairman Peterson moved to adopt said Resolution 2026-15 as presented to set the property tax request and tax levy. Board Member Ruble seconded this motion. No further discussion was required.

The Chair instructed the Clerk to call the roll and the following was the vote on this motion. Yeas: Peterson, Ruble, Custer, Burklund, and Johnson. Nays: none.

WHEREUPON, the Chair declared that the motion having been approved by a majority of the votes cast, said Resolution 2026-15 is approved and adopted.

Brittany Klusaw the Village's new account manager, Stacey Bryant, and Jared Anderson were present from OPPD to review electrical findings regarding Well #7.

Klusaw reviewed: **1)** The power quality team has done some reviews to make sure the circuit stays good. **2)** The AMI team, and Storm Operations Team also looked to see if there's anything going on. **3)** They want to make sure the reliability is good and they're committed to making sure that happens. **4)** Tree trimming is needed because the growth could be potentially one of the factors. They will check if anything is hitting the lines. **5)** There have been recent storms and vehicle accidents.

Peterson reviewed the biggest problem is the Village has spent a lot of money on wells currently and had power issues

being the main source of having wells go down. He noted in 2002 or 2003, he read in the minutes there were power issues back then taking out the wells. It's been going on for a very long time that we've had issues with our wells and the power source. We're trying to figure out what's going, and what we can do different. We've spent extra money trying to add safety on our end. We wanted to meet with you to see if there was something different we could do.

Klusaw noted with the new AMI meters they get notified of outages before customers call.

Anderson said with the new AMI meters they are able to see all the way to each individual service. They are monitoring high and low voltages on all phases. They also get outage indications on any phase to the actual individual services. Before, it was a customer-based call-in system. The AMI meters call in automatically. They are monitoring all the voltages, loose connections, and if the cap banks aren't turning on. They are still learning all the information that is coming in from the meters.

Bryant noted when they didn't have the updated meter, they had to set a recorder on the meter to understand the different voltage levels at the service. She said there have been times when they needed to run the Village service coming out from the other circuit in sub 988. The Village normally feeds on what they call feeder 465. There's another one, 466, that they will use once in a while for substation maintenance, which they notify ahead of time. When they are doing substation maintenance, the Village is fed from the other circuit. OPPD's power quality engineers said it's within the ANSI standards, which are the standards to deliver the power. Across the phases that balancing isn't quite what it would be if the Village were running from the normal feed. Roland puts the backup generator on when OPPD does substation maintenance to make sure the equipment doesn't see any fluctuations in voltage. That can help prevent damage to equipment when they feed alternatively. Similarly, in a storm, if there was something on the circuit, they can feed the Village from another feed. On the OPPD side, they're putting new technology in place to give the Village visibility to try to understand the experience that the Village is having. In the past they haven't always known real time. They are learning how to work with all that data and build in more proactive stuff on top of the maintenance programs that they already have, like tree trimming.

Burklund questioned if they put monitors out at the well and what they showed? Anderson noted it showed the B phase went out a couple different times because of weather. They received notice from the meter that there was only single phase. There were two of the three phases that were out. There was a blown fuse on the transformer bank by the wells.

The Board raised concerns of two wells, which included the new well, going down. This included two motors and one pump in the last few months. The cost is $25-$50,0000 when it happens. VFD's were installed.

Anderson noted there had been the weather event, and strong winds that came through, and thinks that was attributed to a couple different outages within a short time period. Lindgren noted there wasn't any weather incident when the new well went down.

Anderson noted there was a couple car accidents that happened in the last few months since July.

Klusaw noted she will contact Sheldon with the power quality team to review the issues. The Board recommended that Roland speak with Sheldon.

Lindgren noted the insurance company and Sargent are waiting for a report from OPPD, to see if it could potentially be an OPPD issue.

Bryant noted they can share information about where they see events. Where they've seen the momentaries and what they attributed the cause to. Lindgren will send the dates of the incidents.

Lindgren questioned a recent survey she completed for OPPD, which included questions regarding outages.
Bryant said they do an integrated system plan every five years, and it informs them what they do with the generation

mix, investments, reliability, resiliency, rates, environmentally, economic growth. They are trying to do all of them by getting input from all types of customers. She said they are committed to doing all of them: reliability, affordability, environmental sensitivity, and growth to the degree that they can be in the moment. They're trying to do the best they can with the dollars they have available to check off all those boxes.

Johnson asked if the new metering system has data that can be tracked? Anderson noted it's not as high quality as a power quality recorder, which they may set one out at the well again. It has a higher resolution recording frequency. The meters on every service has a little less resolution, but they can still see it capture if there is low voltage and how many times it happened. They're not going to see all the different high frequency spikes from lightning strikes. The meter can't catch that, but the power quality recorder could. It's not a guarantee.

Bryant noted they are able to see more at the meter level. They can see the distribution better and can keep power on one side of the line and isolate it to a smaller group of customers. Bryant suggested the Village use My OPPD to view available information.

Anderson noted they have the information, but not sure if it can be shared with the Village. Bryant noted they're trying to come up with ways to interpret the data. She will see what information is customer facing ready.

Burklund said he thought when the well was monitored, they found problems. Lengths of time, where the power was fluctuating. Anderson noted that phase B went out. He doesn't know if there were actual variations in voltage.

Johnson noted the last time somebody came from OPPD they said it was dirty power.

Bryant said it could be when they're feeding from the alternate feed. It could have more variations in the voltage, across phase to phase. In terms of ANSI standards, it's a standard they have to, as a utility company, condition the power for its use. They have to stay within those standards, and if they're not within those standards, they have to remediate. They can leave the power quality meters on for a longer period of time and communicate when the Village sees something with the power, and when OPPD sees something.

Burklund questioned what was found with the recorder they already had at the wells? Why was it there if nothing's happening with it? Bryant said they found some trees, and they're going to do some trimming. A lot of the power quality investigations aren't necessarily here. There's a lot of contributing factors. There's a lot of lines, a lot of miles of lines, a lot of different trees, a lot of different components that can happen. If there hasn't been weather when there are momentaries, then they can have someone look at the lines. They have equipment that can overview the lines. They also have a maintenance program.

Burklund requested they work directly with Roland.

Ordinance 2026-7 now comes on for second reading. **AN ORDINANCE OF THE VILLAGE OF CERESCO, SAUNDERS COUNTY, NEBRASKA, TO ESTABLISH, PURSUANT TO SECTION 7-105 OF THE MUNICIPAL CODE OF THE VILLAGE OF CERESCO, SAUNDERS COUNTY, NEBRASKA, ENACTED A TABLE OF RATES – WATER, PER MONTH, AND A TABLE OF RATES – SEWER, PER MONTH FOR ALL WATER AND SEWER UTILITY CONSUMERS OF THE VILLAGE OF CERESCO, NEBRASKA,**

WHEREUPON, Board Member Ruble moved that said Ordinance 2026-7 be approved on its second reading and its title agreed to. Board Member Johnson seconded this motion.

The Chair instructed the Clerk to call the roll for the vote thereon. The Clerk called the roll and the following was the vote on this motion. Yeas: Ruble, Johnson, Custer, and Peterson. Nays: Burklund.

WHEREUPON, the Chair declared said Ordinance 2026-7 be approved on its second reading and its title agreed to and that the third reading of Ordinance 2026-7 be on the next agenda of a meeting of the Board of

Trustees.

Resolution 2025-5 was discussed. Anderson will be asked to put a comparison together of new houses and the difference in the pricing between what it was and what it would be.

Peterson said they will revisit this and asked that the Board spend some time looking it over, and to get comparisons to everybody as well.

Resolution 2026-1 will be removed until it is ready for review.

Resolution 2026-6 was introduced by Chairman Peterson and is set forth in full as follows, to wit:

WHEREAS, the Board of Trustees of the Village of Ceresco, Nebraska, currently exerts jurisdiction over property located in Saunders County which lies outside of its corporate boundaries, and,

WHEREAS, pursuant to Neb. Rev. Stat. §13-327, a village may request the County Board to formally cede and transfer to the village extraterritorial jurisdiction over land outside the area extending one mile from the corporate boundaries of the village, but no more than one and one-quarter miles, and

WHEREAS, in the interest of setting specific boundaries for purposes of determining jurisdiction for zoning and building permits, among other purposes, the Village of Ceresco proposes that the boundaries be set according to a map appended hereto and proposed to Saunders County Board of Supervisors, and

WHEREAS the county has formally adopted a comprehensive development plan and zoning resolution pursuant to section 23-114 not less than two years immediately preceding the date of the request; the Village, on the date of this request, is exercising extraterritorial jurisdiction over territory within the boundaries of the County; the requested territory is within the projected growth pattern of the Village and would be within the Village's extraterritorial jurisdiction by reason of annexation within a reasonable period of years; not more than a total of twenty-five percent of the territory of the County located outside the corporate boundaries of the village within the county shall be ceded to the jurisdiction of one city or village within ten years after the date upon which the initial request for the cession of territory to the Village was approved by the governing body Village; and no portion of the territory ceded to the Village's jurisdiction by the County lies within an area extending one-half mile from the extraterritorial jurisdiction of any other city of the first or second class or village on the date the request is approved by the governing body of the Village.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE VILLAGE OF CERESCO, NEBRASKA, AS FOLLOWS:

1. **That the findings set forth above shall be incorporated herein.**

2. **That the Village of Ceresco, by majority vote of the Board of Trustees, requests that the Saunders County Board of Supervisors formally cede and transfer to the Village of Ceresco extraterritorial jurisdiction outside the area extending more than one mile, but less than one and one-quarter mile, as indicated on the map and documents showing the legal descriptions of the subject properties.**

PASSED AND APPROVED this _____ day of _____, 2026.

VILLAGE OF CERESCO, NEBRASKA

By: _____

Scott Peterson, Its Chair

Attest:

_____
Village Clerk, Joan Lindgren

Discussion held. Peterson commented this is for the jurisdiction, which it sounded like the people that did come were in favor of doing the new update.

WHEREUPON, Board Member Custer moved that said Resolution No. 2026-6 to request that the Saunders County Board of Supervisors formally cede and transfer to the Village of Ceresco extraterritorial jurisdiction outside the area extending more than one mile, but less than one and one-quarter mile, as indicated on the map and documents showing the legal descriptions of the subject properties be approved. Chairman Peterson seconded this motion. No further discussion was required.

The Chair instructed the Clerk to call the roll for the vote thereon. The Clerk called the roll and the following was the vote on this motion. Voting Yeas: Custer, Peterson, Johnson, and Ruble. Nays: Burklund.

WHEREUPON, the Chair declared that the Motion having been approved by a majority of the votes cast, said Resolution 2026-6 is approved and adopted.

Resolution 2026-11 tabled to October meeting.

Resolution 2026-14 was introduced by Chairman Peterson and is set forth in full as follows, to wit:

WHEREAS, James Nadrchal, herein referred to as "APPLICANT" has filed an application for a Conditional Use Permit, for an automobile museum in accordance with Section 5.10.03.2 Recreational establishments at the property which is legally described as follows:

LOTS 10-11 BLK 5 ORIGINAL TOWN CERESCO, otherwise known as 119 Elm.

WHEREAS, the property described above is presently included in Zoning District C-2 Downtown Commercial District; and

WHEREAS, the Planning Commission of the Village of Ceresco, Nebraska has conducted a general public hearing on Monday, August 17, 2026 receiving input and data from the APPLICANT and the general public concerning the Conditional Use Permit; and

WHEREAS, the Village Board of Trustees of the Village of Ceresco, Nebraska has conducted a general public hearing on Tuesday, August 18, 2026 receiving input and data from the APPLICANT and the general public concerning the Conditional Use Permit; and

NOW THEREFORE, in consideration of the foregoing recitals, the Board of Trustees of the Village of Ceresco, Nebraska, hereby adopts the following Resolution:

BE IT RESOLVED by the Board of Trustees of the Village of Ceresco, Nebraska that James Nadrchal, is hereby granted a Conditional Use Permit for an automobile museum in accordance with Section 5.10.03.2 Recreational establishments as permitted conditional use in the existing C-2 Downtown Commercial District subject to the following terms and conditions:

1. **Subject to an annual review.**

2. **Must be open to the public one day a month.**
3. **Must have restroom facilities for Public Use.**
4. **Meet any Building Codes required for Commercial Building open to the public.**

WHEREUPON, Board Member Burklund moved that said Resolution No. 2026-14 be approved. Board Member Ruble seconded this motion. No further discussion was required.

The Chair instructed the Clerk to call the roll for the vote thereon. The Clerk called the roll and the following was the vote on this motion. Yeas: Burklund, Ruble, Custer, Johnson, and Peterson. Nays: none.

WHEREUPON, the Chair declared that the Motion having been approved by a majority of the votes cast, said Resolution 2026-14 is approved and adopted.

Claims were reviewed. Custer made a motion to approve the claims as presented. Peterson seconded. Voting Yeas: Custer, Peterson, Johnson, Ruble, and Burklund. Nays: none. Motion carried. Approved claims: Amazon Capital Services $837.52/gen, pol, wat; City of Wahoo $450.00/gen; Dinges Fire Co $2,520.00/fire; JEO $390.00/gen; Menards $189.88/wat; Motorola $4,686.50/fire; Nebraska Department of Revenue $1,469.37/sew; NE Public Health Environmental Lab $524.90/wat; Raymond Central Public Schools $2,192.50/gen; Sam's $120.79/lib, gen.

Basketball hoops were discussed. Custer doesn't think we should go with Amazon. She feels that Scheels is expensive, but something needs to be done. They are rusted.

Johnson asked if they were just rusted or rusted through because the quality of the older stuff is so much better. He suggested refurbishing by sandblasting and repainting.

Ruble commented we should check if they are salvageable and refurbish them, and buy new hoops. He will look and see if they can be salvaged.

Speedbumps were discussed. Peterson said to purchase two and see how they work.

Review of the approved Conditional Use Permit for an automobile and truck sales and service for Tyshkov was discussed. Johnson noted he talked to Mark Masek and he will get quotes to extend the water and sewer lines. The two property owners can deal between each other, but he feels like it makes no sense to pave the street at this time.

Lindgren noted according to the water map the water line east of the southwest corner of the gas station is 4". She spoke with Masek and he has concerns if a 4" water line is extended, because future commercial development could require a 4" line itself. Masek also said it would be cheaper to put in some kind of holding tank instead of digging it up. He thinks it would cost way more to dig it up and replace the 4" with a 6" line.

The street was discussed, and whether a waiver, as the engineer had previously suggested, would be allowed. Ruble said he's okay with putting a timeline on the street. It can be put in to the driveway, but then after so many years or upon sale it would have to be put in. Otherwise, we're going to run into the same situation we're running into now. Lindgren noted it will more than likely include an assessment.

Peterson noted his thought is to run it to the entrance and then make an agreement if it needs to go farther later.

Johnson said he suggests preparing the street for future paving, by doing dirt work and rocking it, and giving the guy slack to bring the business in.

Ruble said he thinks the paving needs to be done to at least the driveway and then rock past that.

Burklund suggested having JEO check the costs for the street with and without curb and gutter, and the water and sewer extensions. Johnson agreed to have JEO, without drawings, figure what it costs per foot for the water line, sewer line, and for the road with curb and gutter, and without curb and gutter. Lindgren will contact Ogden.

Dental and vision insurance renewal was reviewed. Dental increased 4.31%. No increase to Vision.

Custer moved to approve the dental and vision insurance renewal as presented. Peterson seconded. Voting Yeas: Custer, Peterson, Burklund, Johnson and Ruble. Nays none.

Burklund asked if the Village pays for dental for all employees or all employees and family? Lindgren said it is all for employees and 50% for family.

Scheduling employee evaluations was discussed and tabled to the October 20th meeting.

Johnson noted the pump that was taken out of well #7 is at the shop, if anyone wants to take a look at it.

Johnson updated the Board on the street projects. Cather may come Wednesday, but it depends on the weather.

Peterson updated the Board on a meeting he had with Darrel Swanson. Peterson read through minutes from 2002 and 2003. There is a signed agreement with Swanson stating that with all these things done, he is in agreement that the town took care of their part, and he's going to take care of his part, and everything is settled. So, he cannot come back on the town or Olson's, saying that there's damage to his building. He also noted when the north side of Main was paved, they went over the curb so the street is actually higher than Swanson's curb cut where he goes into his driveway. Water from Main does funnel in to his property. Peterson said he told Darrel he would look into the issues but, told him he needs to work with him and move the vehicles. Swanson said he would do that.

Burklund question what happened to the flags that were up and asked to put them back up.

Burklund said he is done with the computer and wants all paper.

Johnson said the difference for the Main Street sidewalk extension bid without rebar is $500.00, because it is fiberglass rebar, not steel.

Burklund made a motion to adjourn at 8:23 PM. Ruble seconded. Voting yeas Burklund, Ruble, Johnson, Custer and Peterson.

Scott Peterson, Chair
Joan Lindgren, Clerk
